The Vermont Department of Health, in partnership with Community Health Centers of Burlington, will be offering testing at the O'Brien Community Center in Winooski at 32 Malletts Bay Avenue. This is for members of the community of Winooski. Testing is free and available to anyone. Children under the age of 12 months cannot be tested. These clinics are part of the State of Vermont's efforts to ramp up testing and prevent the spread of COVID-19. **The test will tell you if you have a current infection.** It is not a serology/antibody test, which means it will not tell you if you were infected in the past.
